Depending on your particular circumstances we have two worming programs:

**Option 1:** All dogs should receive a broad spectrum (round and tape worms) wormer every 3 months (e.g. Endoguard).

**Option 2:** In addition to the board spectrum wormer every three months as in Option 1 above, dogs on farms should receive a tape worm only wormer every month (e.g. Doncit) at the intervening months.

Start Date: \_\_\_/\_\_\_/\_\_\_

Flea Treatments are also available for mail out: Advantage Multi & Frontline (Three month supply).

Dog Name	Weight	Option 1	Option 2	Flea Treatment
Cats Name	Weight	All Wormer	Flea Treatment	

**Note:** Please advise us of any change in details to your programme (address, deaths, weights, additions etc.)
